

Market Operations Notice

Thursday 4th October 2012

Reference Number: 0018/12

Subject: System or Process Malfunction and Trading in DML

Earlier today Chi-X was advised by ASX that due to an "ASX system or process malfunction" a trading halt session state in security Discovery Metals Limited [DML] was incorrectly lifted to permit trading between 13:40:00 and 13:41:33. ASX has cancelled all trades executed in DML during that period.

In accordance with the Market Integrity Rules, Chi-X automatically mirrors the imposition and lifting of all such trading halts by ASX. As a consequence, trading was permitted on Chi-X's market during the period that the trading halt was incorrectly lifted. As a consequence all trades in DML executed on Chi-X's market between 13:40:00 and 13:41:33 have been cancelled.
