

Market Operations Notice

Date: Tuesday 11th October, 2011

Reference number: 0018/11

Subject: Testing Business Continuity Arrangements

As part of our preparations for launch we have just completed a test of our business continuity arrangements. As a result the market operations team is now operating from our back up office facilities. Those testing would have recently experienced an unscheduled halt to the Chi-X market and support lines were directed to voicemail.

The market operations team is now back on-line at our alternative office location and the market has resumed continuous trading.
